ASE lab3 assignment:

Sign in page:

Here you have the sign in page where you need enter first name, last name, phone number, email, password. You will have a camera button where you can click and it will allow you to take a picture and that will be displayed on the image view button.

Home Page:

Here you again have two buttons one is for capturing your photo and one is for map. Default you have another button named home which will take you into sign in page.

CapturePhoto: you can click this button and you can take an image for you.

Takemap: This button will allow to take a google map which is our location.

Here your current location is displayed and your image which is captured in the first sign in page will be displayed along with your current location.
